"Identifying the Blueprint of your Aura, Subtle bodies & Soul"

We all have an energy field around us which is our "Unique" energetic signature. Scientifically it is called the 'Bio-electromagnetic field' & spiritually it is called the 'Aura'. This field extends to about 5-6 feet in all directions around us and is used as the primary interface to interact with the world around us. If this is clear & refined, we live our life with complete clarity and if it is cloudy or dirty, we get confused and begin attracting problems in our lives.

This auric field (aura) is like a vessel and has many layers which are primarily known as the various layers of the aura or the Panchakosha in Ayurveda. The various energetic layers contain our physical & subtle bodies and if we can somehow know how to read or scan this aura we can tap into the energetic information flowing within each of our bodies.

“As a psychic intuitive channel, Nishant tunes into the various layers of your aura to see what the blueprint of energies you are carrying around and how are they impacting your life. Once identified, then we can easily use energetic remedies & vibrational energy medicine therapies to bring your energetic system back in harmony”

For example, Reading the aura of the:

•**Physical body:** Allows us to read the energy of our whole physical organs and know their status of health. If we are truly healthy or not!

•**Mental body:** Allows us to read the mental belief patterns that either propel us towards Success or Create failures in our lives that block us from expressing ourselves to achieve our true potential.

•**Emotional body:** Allows us to tap into our emotions and see which emotions are running our life on an auto-pilot mode. Once we can recognize the emotion, we can use appropriate techniques to switch the emotion from a negative emotion to a positive uplifting emotion.

•**Spiritual body:** Allows us to tap into the karmic layer of our soul to access information about our Soul's evolution. Our level of consciousness, Life lessons that we are here to learn at this time of our lives, Karmic patterns that are blocking us from moving forward or growing in life etc.

•**Astral or Energetic Body:** Since physical body is a replica of our energetic body, whatever happens in the physical body (diseases or illness, even aches & pains, infections, accidents etc.,) first appear as an energetic flaw in our energetic body which is also known as the 'Ethereic body'. In short it is the Blueprint of our physical body'.

Chakra Analysis: Our chakras are the power stations or the energy centres which absorb the universal energy and supply it to our subtle bodies, much like our respiratory system pulls in oxygen to supply it to our body and release carbon dioxide. We are as healthy as our Chakra's. So tuning them up to their maximum efficiency is the key for maintaining a good health at all the above mentioned levels of the aura.
